

Dotpay

the local Polish payment method

Dotpay offers wide choice of payment methods that cover 100% of the Polish e-payments market. This includes traditional payment channels such as e-transfers. Quick e-transfers are the most popular method of payment in Poland accounting for more than 47% of all e-commerce transactions.

With Dotpay more than 250 banks are available as part of a single connection. Merchants offering this local payment method can higher their conversion rates, as a result of the big number of banks that they offer.

The payment of funds to the merchant is 100% guaranteed and is transferred immediately with instant confirmation. During the transaction process, the likelihood of an error is also very low as the transfer details are loaded automatically and cannot be edited.

Features

- Payment method type: [Internet Bank Payment \(IBP\)](#)
- Solution type: [Full Service^{Premium}](#)
- Presentment/Settlement currency: [PLN](#)
- Supported Integration: [Payment Page](#), [Web Service API](#), [Device Rest API](#)
- Recurring Payments: [No](#)
- Chargebacks: [No](#)

How it works

Customer selects Dotpay at checkout and the payment option (banks) within Dotpay.

Customer gets redirected to bank to finalize payment.

After completing the payment, customer returns to merchant's website. Payment is confirmed via a notification.

Geographic coverage
